GOVERNMENT MESSAGES OF THE DAY

ATTACKS ON FOREIGN NATIONALS

- SA companies and our citizens are welcomed and loved across the continent and we call on South Africans to do the same and embrace our African brothers and sisters.
- The attacks should not be happening at a time when regional and continental bodies are looking to SA to provide leadership with regard to issues confronting the continent.
- SA is a constitutional democracy governed by laws and as such we expect everyone working and living in the country to be doing so legally and obey South Africa's laws in their totality.

ECONOMY

- Govt will continue to priorities political stability, policy certainty and the reform of SOEs to ensure sustained economic recovery and growth.
- We are taking steps to rebuild investor confidence, end corruption and state capture, restore good governance at SOEs and strengthening critical public institutions.
- Govt had stepped in to provide direct support to Eskom in the form of R23bn a year over the next three years to ensure energy security.
